U.S. CHEMICAL SAFETY BOARD

An independent federal agency investigating chemical accidents to protect workers, the public, and the environment.

CSB Motion and Vote - April 20, 2016 Business Meeting

Motion: to consider Notation Item 2016-27, which was calendared on February 16, 2016. The item would designate the status of Recommendations to the American Chemistry Council (2001-01-H-R9 and R10) from the Improving Reactive Hazard Management Investigation, as Closed – Acceptable Alternate Action for R9, and Closed – reconsidered/superseded, for R10. Currently, both recommendations have the status of Open – awaiting response or evaluation.

Voice vote record:

Ehrlich: Approve

Engler: Disapprove

Kulinowski: Disapprove

Sutherland: Approve
