Comments Submitted by Member Wright:

This action appears to discount the word of Zurich with respect to our recommendation. Short of saying we do not believe you, we are implying the same and requesting them to send us a roster of signatures for attendees at their risk managers meeting. This goes well beyond our stated recommendation and I believe Zurich has met the intent of our recommendation.

Comments Submitted by Member Wark:

I understand this item has been calendared and I will, therefore, defer my vote until discussed at a Board meeting.
