MESSAGE FROM THE INTERIM EXECUTIVE AUTHORITY

As an independent, nonregulatory agency, the U.S. Chemical Safety and Hazard Investigation Board's (CSB) mission is to drive chemical safety change through independent investigations to protect people and the environment. To that end, CSB conducts comprehensive, root cause investigations of serious chemical incidents, which are often preventable with robust safety management systems. The agency makes recommendations to prevent similar incidents from occurring. CSB investigations have collectively identified gaps in regulatory safeguards, industry standards and guidance, workforce training and operations, emergency response, and community planning that exacerbated the consequences of incidents and contributed to loss of life and property.

The information provided in this Performance and Accountability Report (PAR) offers fiscal and programmatic accountability and as an accounting to the American people regarding our stewardship of the funds that have been entrusted to us for fulfillment of our mission in Fiscal Year (FY) 2018. The results also summarize our success in achieving CSB performance goals for FY 2018. The PAR is organized in three sections:

1. **Management Discussion and Analysis.** Provides an overview of the agency's performance and financial results. It summarizes the CSB's mission, organization, goals, accomplishments, financial condition, and legal compliance.
2. **Performance Report.** Presents the CSB's strategic goals and objectives. In addition, it provides the FY 2018 performance targets and results.
3. **Financial Report.** Presents the CSB's financial statements and notes for the years ended September 30, 2018, and 2017. It includes the independent auditor's report with an Unmodified Opinion, the highest level of assurance that the CSB's financial statements are presented, in all material respects, in accordance with applicable financial reporting requirements.

The Federal Manager's Financial Integrity Act (FMFIA) requires the CSB to annually evaluate its management controls and identify any material weaknesses. This requirement covers all of the CSB's programs and administrative functions. As the CSB works to serve the American people, we must administer our programs as efficiently, economically, and responsibly. The CSB relies on a system of management controls to provide reasonable assurance that our financial activities comply with all applicable laws, and safeguards resources as well as properly accounts for expenditures.

Based on both internal and external evaluations, and knowledge gained from daily operations, I am able to certify with reasonable assurance that the CSB is in compliance with the provisions of the FMFIA.

Kristen M. Kulinowski, Ph.D.
Interim Executive Authority
November 15, 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS

Overview

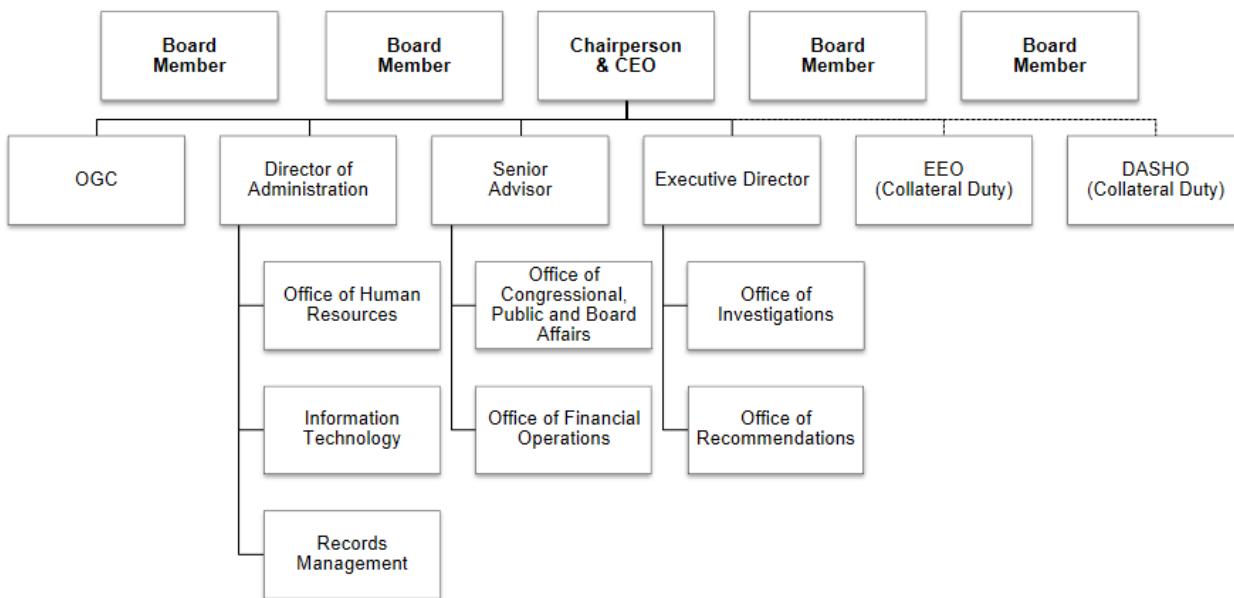

The U.S. Chemical Safety and Hazard Investigation Board (CSB) is an independent Federal agency charged with investigating industrial chemical incidents and hazards. CSB investigations examine all aspects of chemical incidents, including the probable cause or causes such as equipment failures, and root causes such as inadequacies in safety management systems and safety culture. The Board makes safety recommendations to government agencies, facility management, industry organizations, and labor groups. The following is a concise overview of the CSB. For detailed information visit our website at www.csb.gov.

Mission and Organizational Structure

This report addresses accomplishments in the second year of *CSB's 2017-2021 Strategic Plan*. The mission of the CSB is to drive chemical safety change through independent investigations to protect people and the environment. Our vision is a nation safe from chemical disasters.

The CSB began operations in fiscal year (FY) 1998. The CSB is headquartered in Washington, DC, has a field office in Denver, Colorado, and employees working remotely in Houston, Texas, and other locations. The CSB is governed by its Board, which consists of one presidentially-appointed Chairperson (who also serves as a Board Member) and four presidentially-appointed Board Members. All nominations to the Board are subject to Senate confirmation; each member serves a five-year fixed term. As of September 30, 2018, there were three appointed Board Members and a professional staff of 29. There are currently two vacant Board Member vacancies, including the Chairperson. In accordance with CSB policy, one Board Member serves as the Interim Executive Authority.

The following is the organizational chart, which was in effect September 30, 2018.

Performance Goals, Objectives, and Results

The strategic goals outlined in the agency's strategic plan are as follows:

- **Goal 1:** Prevent recurrence of significant chemical incidents through independent investigations.
- **Goal 2:** Advocate safety and achieve change through recommendations, outreach, and education.
- **Goal 3:** Create and maintain an engaged, high-performing workforce.

Overview of CSB Accomplishments

Goal 1: Prevent recurrence of significant chemical incidents through independent investigations.

Goal 1 focuses on the core mission of the agency by ensuring that we deploy and complete incident investigations, and that we issue recommendations with broad preventive impact. In FY 2018, the CSB completed 15 safety products, including three final reports, four interim investigative factual updates, and eight safety video products. The CSB issued a total of 11 new recommendations to improve chemical safety and reduce hazards. Incident investigation reports issued in FY 2018 include:

- **Chemical Fire and Facility Flooding (Crosby, TX):** On August 29, 2017, flooding from Hurricane Harvey disabled the refrigeration system at the Arkema plant in Crosby, TX, which manufactures organic peroxides. The following day

people within a 1.5-mile radius were evacuated for six days. During the refrigeration outage, trailers increased in temperature and the peroxides spontaneously combusted on August 31. Officials ignited the remaining unstable chemicals on September 3, 2017. The CSB's investigative report provided guidance for the shutdown and startup of chemical facilities in response to extreme weather. **The final report was released on May 24, 2018.**

- **Hot Work Explosion (DeRidder, LA):** On February 8, 2017, three contractors were killed, and seven contractors sustained injuries in an explosion at the Packaging Corporation of America facility in DeRidder, Louisiana. The fatally-injured contractors were conducting hot work activities near a 100,000-gallon storage tank that contained a flammable atmosphere and ultimately exploded. **The final report was released on April 24, 2018.**
- **Chlorine Release and Community Shelter-in-Place (Atchison, KS):** On October 21, 2016, sulfuric acid was inadvertently unloaded from a tanker truck into a fixed sodium hypochlorite tank at the MGPI Processing plant in Atchison, Kansas. The two materials combined to produce a mixture of chlorine gas that sent over 140 individuals, both workers and members of the public, to area hospitals and resulted in shelter-in-place and evacuation orders for thousands of local residents. **The final report was released on January 3, 2018.**

In addition to completing investigations, the CSB deployed to four new incidents and continued work on several ongoing investigations, including:

- **Manufacturing Facility Explosion (Pasadena, TX):** On May 19, 2018, an explosion injured 21 workers at the EVAL facility in Pasadena, Texas. The facility manufactures ethylene vinyl-alcohol copolymers, sold as EVAL. Kuraray America is a Tokyo-based specialty chemical manufacturer.
- **Refinery Explosion and Fire (Superior, WI):** On April 26, 2018, an explosion and subsequent fire occurred at the Husky Superior Refinery in Superior, WI. The explosion occurred during a scheduled break time and many workers who were previously in the unit before the explosion had moved either into blast-resistant buildings or away from the process unit at the time of the explosion. However, as a result of the explosion, thirty-six people sought medical attention, including eleven refinery and contract workers who suffered injuries. In addition, a large portion of the community of Superior, WI was evacuated. **The CSB released a factual investigative update in Superior, WI on August 2, 2018.**
- **Gas Well Blowout and Fire (Pittsburg County, OK):** On January 21, 2018, a large explosion during drilling operations at Pryor Trust gas well 0718 fatally injured five workers. **The CSB released a factual investigative update in Oklahoma City, OK on August 16, 2018.**

- **Combustible Dust Explosion (Cambria, WI):** On May 31, 2017, an explosion occurred at the Didion Milling facility in Cambria, Wisconsin, where sixteen employees were working the night shift. Thirteen people were injured, five fatally. If this incident had occurred twelve hours earlier during the day shift, up to fifty people would have been working in the damaged buildings and the number of injured and killed could have been considerably higher. The packing facility where some employees had been working completely collapsed as a result of the explosion. **The CSB released a factual update in Duluth, MN on April 30, 2018.**
- **Tank Explosions (Barbour County, WV):** On May 24, 2017, an out-of-service tank exploded at the Midland Resource Recovery facility in Philippi, West Virginia, killing two workers and severely injuring another. A few weeks later, on June 20, 2017, another vessel exploded and killed one contractor working at the site. The explosions happened in pressure vessels that were being decommissioned and cleaned, following use in natural gas service to add odorant to natural gas pipelines.
- **Catastrophic Pressure Vessel Rupture (St. Louis, MO):** On April 3, 2017, overpressure within a steam condensate storage tank at the Loy-Lange Box Company launched the vessel into a neighboring dry-cleaning facility and fatally injured one worker at the box company and three members of the public at the adjacent facility.
- **Hot Work Explosion and Fire (Nederland, TX):** On August 12, 2016, seven workers were injured at the Sunoco Logistics Partners natural gas terminal in Nederland, Texas. The incident involved a flash fire during welding activities.
- **Gas Plant Explosion and Fire (Moss Point, MS):** A flammable gas release with subsequent fire and explosions occurred at the Enterprise Products Gas Plant, near Pascagoula, Mississippi, on June 27, 2016. The incident resulted in the evacuation of the local community.
- **Toxic Chemical Release (LaPorte, TX):** On November 15, 2014, nearly 24,000 pounds of methyl mercaptan were released at the DuPont Chemical manufacturing facility in LaPorte, Texas. The release resulted in the deaths of three operators and a shift supervisor inside an enclosed manufacturing building. Additionally, three other workers were injured from their exposure to methyl mercaptan and at least three more workers experienced methyl mercaptan exposure symptoms.

Goal 2: Advocate safety and achieve change through recommendations, outreach, and education.

Goal 2 focuses on implementing recommendations and their associated advocacy and outreach. Safety recommendations are the CSB's primary tools for bringing about significant improvements in chemical safety. Investigations may result in multiple recommendations to the parties best able to carry them out. Once the CSB issues a recommendation, Board Members and staff encourage implementation, ensure the recommendations are effectively communicated to the recipient(s), together with any needed justification or explanation, and track the recommendations to completion.

In FY 2018, the CSB closed 37 previously issued recommendations. One response, from MGPI Processing, exceeded the actions recommended by the CSB to reduce future safety risks and hazards. The CSB issued recommendations to MGPI to install safeguards, such as alarms, interlocks and automatic shutdown measures, to prevent personnel from opening the incorrect chemical transfer valves during deliveries and to shut down the transfer of chemicals into the facility when a process deviation or abnormal condition is detected. MGPI's corrective actions, including process modifications and use of process hazard analyses (PHA), were recognized by the CSB in its first Safety Spotlight issued about a company.

The impact from the CSB's recommendations can also be seen following the April 26, 2018 explosion at the Husky Superior Refinery in Wisconsin. The incident occurred during a scheduled break time when many workers who were in the unit prior to the explosion had moved either into blast-resistant buildings or away from the process unit. The use of blast-resistant buildings was a key recommendation from the CSB's investigation of another refinery explosion in Texas City, Texas, more than 13 years ago.

In 2018, the CSB commemorated its 20 years of *driving chemical safety change* in the United States. From 1998 to 2018, the CSB addressed critical chemical safety gaps and deficiencies through its reports and recommendations to companies, standards-developing organizations, academia, industry associations, emergency responders, labor groups and Federal and state government agencies. CSB recommendations continue to drive safety changes to help protect workers, the public, and the environment.

To highlight the agency's investigative work over the past 20 years, the CSB focused on a specific chemical safety theme each month in 2018 where the agency has made a significant impact by sharing lessons learned, issuing recommendations, advocating for safety change and collaborating with stakeholders. Each month, the CSB added new resources to its website to create a chemical safety resource for all stakeholders affected by the use of chemicals in industrial settings. The CSB's new safety resource pages address the following topics:

- Process Safety Management for the 21st Century
- Safe Hot Work Practices
- Combustible Dust Safety

- Extreme Weather
- Preventive Maintenance
- Contractor Safety
- Laboratory Safety
- Winterization
- Emergency Planning and Response
- Human Fatigue
- Reactive Hazards Management

These newly-available resources included four hazard-specific fact sheets, six Safety Digests focused on lessons learned in previous investigations, two Safety Spotlights on exemplary efforts to implement CSB recommendations by State legislatures and by an individual company, and a dataset on incidents in laboratory settings from 2001 to 2018.

The CSB's outreach activities also include the advancement of strategic safety topics described in the *Drivers of Critical Chemical Safety Change Program*. This program identifies the most critical chemical safety improvements needed to protect people and the environment. CSB staff use this program to direct outreach initiatives and ensure that the agency's limited resources are optimized to address the most critical chemical hazards facing the nation. Currently, the CSB has identified five drivers of critical safety change: 1) Combustible Dust Safety; 2) Process Safety Management for the 21st Century; 3) Emergency Planning and Response (Preparedness); 4) Preventive Maintenance; and 5) Safe Hot Work Practices.

The CSB's newly launched website prominently features the agency's *Drivers of Critical Chemical Safety Change Program* and safety resources while also improving the user experience and enhancing accessibility to CSB videos and other products. The agency has expanded the resources available to stakeholders through the translation of resources into Spanish and the addition of closed captioning to the CSB safety videos on YouTube.

Moreover, to optimize the use of its limited resources to advance chemical safety, the CSB has collaborated with other Federal agencies and safety organizations to advance shared safety goals. In August 2018, the CSB participated in the nationwide Safe + Sound Week, partnering with OSHA, the National Institute for Occupational Safety and Health (NIOSH), the National Safety Council, the American Society of Safety Professionals, and the American Industrial Hygiene Association to raise awareness and understanding of the value of safety and health programs. The CSB also issued a joint statement with the Chlorine Institute on the importance of preventive maintenance as well as a statement with the American Chemical Society on the safe performance of lab demonstrations. The CSB will continue to identify opportunities to collaborate with other Federal agencies and safety organizations in FY 2019 and FY 2020.

Finally, the CSB released a variety of safety video products to view and download, free of charge, on its website and on YouTube. The video products released in FY 2018 include three full-length safety videos detailing the findings from a chemical release resulting from extreme weather during Hurricane Harvey in Crosby, Texas; an olefins

plant explosion in Baton Rouge, Louisiana; and a chlorine release in Atchison, Kansas. The CSB released four computer-generated animations of incidents at a refinery in Superior, Wisconsin; an oil well blowout and fire in Pittsburg County, Oklahoma; and chemical fires in Crosby, Texas and DeRidder, Louisiana. A safety message on the importance of facility winterization was released in September 2018. Finally, the CSB released three additional video products that depicted a nitrous oxide explosion near Pensacola, Florida, a toxic chemical release in Atchison, Kansas, and a chemical release in Richmond, California. CSB videos have been viewed more than 12 million times on YouTube, and the agency's YouTube channel has more than 50,000 followers.

Goal 3: Create and maintain an engaged, high-performing workforce.

Goal 3 emphasizes organizational excellence. In FY 2018, the CSB developed and implemented a new Human Capital Plan and began recruiting efforts to fill multiple vacancies for the agency's mission critical position, Chemical Incident Investigator. Industry trends drive a need for the CSB to strengthen our capacity to analyze increasingly complex engineering processes and human interactions with these processes, and deploy to incidents in new industries and with emerging technologies. The Human Capital Plan recognizes the need to train and develop future investigators and support staff to meet emerging needs and maintain organizational continuity.

In FY 2018, the CSB also began investing in technological advances to improve operational excellence and accessibility of CSB products to the American public. In order to implement recent executive orders and OMB guidance on IT development, modernization and enhancement (DME), the CSB upgraded equipment and software to accommodate the significant increases in the number of electronic records created and maintained. In addition, to comply with the Administration's initiatives for IT modernization, the CSB made several improvements to its IT infrastructure, including the replacement of aging and end-of-life hardware, and the migration from physical hardware to servers in a virtualized environment in both its Washington, DC and Denver, CO, offices. These improvements were required to maintain IT system security and integrity and will continue in FY 2019. To support the advanced software, the agency was required to expand internet bandwidth in both its Washington, DC, and Denver, CO, offices.

Analysis of Financial Statements

The CSB's financial statements have been prepared to report the financial position and operational results pursuant to the requirements of the Accountability of Tax Dollars Act of 2002. The principal financial statements include the Balance Sheet, Statement of Net Cost, Statement of Changes in Net Position, and Statement of Budgetary Resources. The following chart summarizes the CSB's budget and net outlays since FY 2013.

**CSB's Budget and Net Outlays
(Dollars in Thousands)**

Fiscal Year	Budget ¹	Net Outlays ²
2018	\$11,000	\$10,554
2017	11,000	10,683
2016	11,000	10,182
2015	11,000	11,139
2014	11,000	10,474
2013	10,547	10,303

Allmond & Company, LLC, an Independent Public Accounting firm, audited the CSB's FY 2018 consolidated financial statements included in this report and issued an Unmodified Opinion, the highest level of assurance, which states the financial statements present fairly, in all material respects, the financial position of the CSB as of September 30, 2018, and 2017, and its net costs, changes in net positions, and budgetary resources for the years then ended, in conformity with accounting principles generally accepted in the United States. This achievement demonstrates both CSB's continued dedication to sound financial management and the reliability of the financial data upon which the CSB bases our critical decisions.

Limitations of the Financial Statements

The principal financial statements have been prepared to report the financial position and results of operations of the entity, pursuant to the requirements of 31 U.S.C. 3515 (b). While the statements have been prepared from the books and records of the entity in accordance with generally accepted accounting principles (GAAP) for Federal entities and the formats prescribed by Office of Management and Budget (OMB), the statements are in addition to the financial reports used to monitor and control budgetary resources, which are prepared from the same books and records.

¹Budget is the annual budget authority to enter into obligations for salaries and expenses. The amount shown excludes a no-year Emergency Fund, which was provided to be a funding mechanism for investigation cost fluctuations. As of September 30, 2018, the Emergency Fund had not been used and had a balance of \$844,000

² Net outlays are gross outlays (total disbursements made during the year) that are reduced by offsetting collections and increased by distributed offsetting receipts. Net outlays may be for payment of obligations incurred the same year or in prior years. As a result, the net outlay amounts may exceed the budget authority for a fiscal year.

The statements should be read with the realization that they are for a component of the U.S. Government, a sovereign entity.

Systems, Controls, and Legal Compliance

The CSB is cognizant of the importance of establishing and maintaining adequate controls for the programs and administrative functions for which it is responsible. As mentioned, the CSB is developing, implementing, evaluating, and modifying controls to provide reasonable assurance that the CSB has adequate accountability of resources. In addition, given the small size of our agency, the CSB determined it to be more cost effective to obtain accounting, travel support, and personnel services from outside Federal agencies that provide additional levels of control.

Based on internal and external evaluations, and knowledge gained from daily operations, our controls provide reasonable assurance that our resources are safeguarded and properly managed. Board Members and managers continue to emphasize the importance of internal controls and evaluate and further enhance them as necessary.

Management Assurances

Federal Managers' Financial Integrity Act

In accordance with the Federal Managers' Financial Integrity Act (FMFIA), the CSB has an internal management control system, which helps provide assurance that obligations and costs comply with applicable law, assets are safeguarded against waste, loss, unauthorized use or misappropriation, and revenues and expenditures are properly accounted for and recorded. This includes appropriate policies and controls to mitigate the risk of fraud and inappropriate charge card practices. The FMFIA also requires assurance that funds are being used in accordance with the agency's mission and that they are achieving their intended results; that resources are protected from waste, fraud and mismanagement, and that appropriate laws and regulations are followed. The FMFIA encompasses program, operational and administrative areas, as well as accounting and financial management.

In FY 2018, the Office of Inspector General (OIG) identified two management challenges.³ The first challenge is that the position of the CSB Chairperson lacks authority to hold Board Members accountable. In response, the CSB will address Board Member roles and responsibilities in a policy document, to include guidelines for situations in which Board Member behavior deviates from established policy. The CSB will also improve onboarding materials for new Board Members, which will include guidance on expectations, roles and responsibilities.

Secondly, OIG identified a management challenge with budget uncertainties and the President's proposals to eliminate the CSB, which negatively impact efforts to attract, hire and retain staff. In response, the CSB continues to work with Congress and the

³ The OIG's report is available on EPA's website (<https://www.epa.gov/office-inspector-general/report-fiscal-year-2018-us-chemical-safety-and-hazard-investigation-board>).

Office of Management and Budget to increase its annual appropriation for future budget years.

The FMFIA requires the agency head to provide an assurance statement on the adequacy of management controls and conformance of financial systems with Government-wide standards. This assurance statement is contained in the Message from the Chairperson.

Improper Payments Information Act

The Improper Payments Information Act of 2002 (IPIA), as amended by the 2010 Improper Payments Elimination and Recovery Act (IPERA) and the Improper Payments Elimination and Recovery Improvement Act of 2012 (IPERIA), requires agencies to review annually all programs and activities to identify those susceptible to significant improper payments, estimate the annual improper payments in the susceptible programs and activities, and report the results of their improper payment reduction plans and activities.

The CSB has not identified any significant risk of improper payments. In order to maintain adequate internal controls to ensure proper payments, the CSB renewed its agreement with the Bureau of the Fiscal Service (BFS) to process financial transactions, make administrative payments, and prepare various financial reports. This agreement promotes the accuracy of our financial records and payments.

Finally, in FY 2018, the OIG conducted a review of CSB's IPERIA compliance and found CSB was fully compliant with the reporting requirements of improper payments legislation.⁴ The OIG also reported that the CSB Purchase Card Program is at low risk for unauthorized purchases.⁵

⁴ The OIG's report is available on EPA's website: https://www.epa.gov/sites/production/files/2018-05/documents/_epaoig_20180509-18-p-0175.pdf.

⁵ The OIG's report is available on EPA's website: https://www.epa.gov/sites/production/files/2018-07/documents/_epaoig_20180703-18-p-0218.pdf.

PERFORMANCE REPORT

The CSB's 2017-2021 *Strategic Plan* serves as a guide in setting priorities, allocating resources, and making decisions. CSB's mission is to drive chemical safety change through independent investigations to protect people and the environment and our plan has the following three strategic goals:

- ***Goal 1: Prevent recurrence of significant chemical incidents through independent investigations.*** Focuses on the core mission of the agency by ensuring that we select and complete incident investigations, and that we issue recommendations with broad preventive impact. CSB investigations inform all stakeholders of lessons learned to prevent and mitigate future accidents.
- ***Goal 2: Advocate safety and achieve change through recommendations, outreach, and education.*** Concentrates on implementing our recommendations and their associated advocacy and outreach. The highly successful CSB safety videos are an important component of the agency information dissemination efforts.
- ***Goal 3: Create and maintain an engaged, high-performing workforce.*** Emphasizes optimizing our human capital resources and continually improving organizational efficiency. This includes the agency's high-performing information technology and administrative functions.

GOAL 1: Prevent recurrence of significant chemical incidents through independent investigations.

OBJECTIVES	FY 2018 TARGET	RESULTS
1.1. Select for investigations those incidents and hazards that are most likely to generate recommendations or findings with broad preventive impact.	No specific deployment target set.	Deployed to four incidents: <ul style="list-style-type: none">• Pryor Trust• Husky Energy• Flowchem• Kuraray
	Revise incident screening procedures	Completed
1.2. Complete timely, high-quality investigations that determine the causes of incidents.	No specific target set.	Completed three investigations: <ul style="list-style-type: none">• MGP Ingredients, Inc.• Packaging Corp. of America• Arkema, Inc.
	Revise investigation protocol	Completed procedures for: <ul style="list-style-type: none">• Initiating investigations• Arriving at the scene• Gathering evidence• Interviewing• Organizing investigation information
1.3. Develop and issue recommendations with broad preventive impact.	No specific target set.	Issued 11 recommendations.

GOAL 2: Advocate safety and achieve change through recommendations, outreach, and education.

OBJECTIVES	FY 2018 TARGET	RESULTS
2.1. Pursue the implementation of recommendations, with focused effort on those designated as high-impact.	No specific target set.	<ul style="list-style-type: none"> • 37 closed; 2 advanced • 83% cumulative total of successfully closed recommendations to those issued.
2.2. Identify and strategically promote key chemical safety issues.	Critical Driver List (CDL) Fact Sheets	<p>Released five fact sheets:</p> <ul style="list-style-type: none"> • Preventive Maintenance • Hot Work • Combustible Dust • Emergency Response • Process Safety Management
	Safety Digests	<p>Released six digests:</p> <ul style="list-style-type: none"> • Preventive Maintenance • Hot Work • Combustible Dust • Startup and Shutdowns • Contractor Safety • Winterization
	Safety Spotlight	<p>Released two safety spotlights</p> <ul style="list-style-type: none"> • MGP Ingredients, Inc. • Advances by State Governments
	Datasets	<p>Released Laboratory Incidents (2001-2018)</p>

OBJECTIVES	FY 2018 TARGET	RESULTS
2.3. Disseminate chemical safety information using a variety of high-visibility tools and products.	Website Redesign	New website launched in March 2018
	Full-length Safety Video	Released three full safety videos: <ul style="list-style-type: none"> • Mixed Connection, Toxic Result • Fire in Baton Rouge • Caught in the Storm: Extreme Weather Hazards
	Video Animations	Released four video animations: <ul style="list-style-type: none"> • Pryor Trust • Husky Superior Refinery • Packaging Corporation of America • Arkema, Inc.
	Video Safety Messages	Released a video safety message on Winterization
	Other Video Products	Released three additional video products: <ul style="list-style-type: none"> • Chevron Refinery Surveillance Footage • MGPI Drone Footage • AirGas Surveillance Footage

OBJECTIVES	FY 2018 TARGET	RESULTS
2.3 Disseminate chemical safety information using a variety of high-visibility tools and products. (Continued)	Published Articles	<p>Published four articles in scholarly journals, magazines and newspapers</p> <ul style="list-style-type: none"> • Women in Process Safety • American Chemistry Society Joint Statement on Laboratory Safety • Chlorine Institute Joint Statement on Preventive Maintenance • Chemical Safety in Extreme Weather

GOAL 3: Create and maintain an engaged, high-performing workforce

OBJECTIVES	FY 2018 TARGET	RESULTS
3.1. Implement effective recruiting, targeted retention, and skills-based training and mentorship.	Update Board Orders related to Senior Executive Service (SES)	Completed and hired SES Executive Director for Investigations and Recommendations
3.2. Encourage management development and leadership at all levels.	Board & Staff Training	Completed training on topics including: <ul style="list-style-type: none"> • Human Resources for Managers • Employee and Labor Relations • Ethics • Records Management • IT Security • Harassment • Workplace Violence
3.3. Strategically allocate resources across the organization.	Develop Human Capital Plan	Completed
	Develop FY 2018 Workforce Plan	Completed
	Complete Organizational Review	Completed
3.4. Strengthen operational performance and project management efforts.	Annual Action Plan Quarterly Tracking	Completed
	Publish FOIA Rule	Completed

Completeness and Reliability of Performance Data

Reported performance data are free from any material inadequacies in the completeness and reliability of the data. As a small agency, the CSB can readily monitor and report on its actual performance in achieving its goals.

Agency Plans and Schedules for Improving Performance

The *2017–2021 Strategic Plan* is a blueprint for CSB priorities. This plan allows us to judiciously allocate our resources to achieve our strategic goals and to promote accountability for our safety mission. It is a living document that provides flexibility in executing the mission as circumstances change. The strategic plan guides the CSB to complete timely investigations of chemical incidents and influence chemical safety for the better.

FINANCIAL REPORT

A Message from the Chief Financial Officer

The CSB recognizes the significance of accountability and public disclosure. This report is a demonstration of our obligation to fulfill our fiduciary responsibilities to the American taxpayers.

I am pleased to present our financial statements for fiscal years 2018 and 2017. This year the independent public accounting firm, Allmond & Company, LLC, issued an Unmodified Opinion, the highest level of assurance, which is consistent with opinions issued since our first full financial audit was conducted in FY 2001.

These financial statements fairly present our financial position and were prepared in accordance with GAAP in the United States of America and formats prescribed by the OMB.

Elizabeth A. Robinson

At a Glance

Why We Did This Review

We performed this audit in accordance with the Accountability of Tax Dollars Act of 2002, which requires the U.S. Chemical Safety and Hazard Investigation Board (CSB) to prepare, and the Office of Inspector General (OIG) to audit, the board's financial statements each year.

The U.S. Environmental Protection Agency's OIG, which also serves as Inspector General for the CSB, contracted with Allmond & Company, LLC, to perform the audit of the CSB's fiscal years 2018 and 2017 financial statements.

This report addresses the following CSB goal:

- *Create and maintain an engaged, high-performing workforce.*

Audit of the U.S. Chemical Safety and Hazard Investigation Board's Fiscal Years 2018 and 2017 Financial Statements

What Allmond & Company Found

Allmond & Company rendered an unmodified opinion on the CSB's financial statements for fiscal years 2018 and 2017, meaning that the statements were fairly presented and free of material misstatements.

In planning and performing its audit, Allmond & Company considered the CSB's internal control over financial reporting. Allmond & Company noted no matters involving the internal control and the CSB operation that it considered to be a material weakness or a significant deficiency.

As part of obtaining reasonable assurance about whether the CSB's financial statements are free of material misstatement, Allmond & Company performed tests of the CSB's compliance with certain provisions of applicable laws, regulations, contracts, and grant agreements, which noncompliance with could have a direct and material effect on the determination of financial statement amounts. Allmond & Company's fiscal years 2018 and 2017 audit disclosed no instances of noncompliance or other matters that are required to be reported.

Allmond & Company is responsible for the enclosed auditor's report and the conclusions expressed in the report. We do not express any opinion or conclusions on the CSB's financial statements, internal control, or compliance with laws and regulations.

Allmond & Company made no recommendations to the CSB.

The CSB received an unmodified opinion on its fiscal years 2018 and 2017 financial statements.

RE: Report No. 19-F-0004, Audit of the U.S. Chemical Safety and Hazard Investigation Board's Fiscal Years 2018 and 2017 Financial Statements

Dear Dr. Kulinowski:

This letter transmits the audit report on the U.S. Chemical Safety and Hazard Investigation Board's (CSB's) fiscal years 2018 and 2017 financial statements. The audit is required by Public Law 107-289, the Accountability of Tax Dollars Act of 2002.

The independent public accounting firm of Allmond & Company, LLC, performed the audit of the CSB financial statements as of and for the fiscal years ended September 30, 2018 and 2017. The audit was required to be done in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States; and Office of Management and Budget Bulletin No. 19-01, *Audit Requirements for Federal Financial Statements*.

Allmond & Company is responsible for the enclosed auditor's report dated November 12, 2018, and the opinions and conclusions expressed in the report. We do not express any opinion or conclusions on the CSB's financial statements, internal control, or compliance with laws and regulations.

Because this report contains no recommendations, you are not required to respond to this report. However, if you submit a response, it will be posted on the OIG's public website, along with our memorandum commenting on your response. Your response will be posted on the Office of Inspector General's public website, along with our letter commenting on your response. Your response should be provided as an Adobe PDF file that complies with the accessibility requirements of Section 508 of the Rehabilitation Act of 1973, as amended. The final response should not contain data that you do not want to be released to the public; if your response contains such data, you should identify the data for redaction or removal along with corresponding justification.

We will post this report to our website at www.epa.gov/oig.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul C. Curtis".

Independent Auditors' Report

Interim Executive Authority and Member, U.S. Chemical Safety and Hazard Investigation Board
Acting Inspector General, Environmental Protection Agency:

Report on the Financial Statements

We have audited the accompanying financial statements of the U.S. Chemical Safety and Hazard Investigation Board (CSB), which comprise the balance sheets as of September 30, 2018 and 2017; the related statements of net cost, changes in net position, and budgetary resources for the fiscal years then ended; and the related notes to the financial statements (hereinafter referred to as the financial statements).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the fiscal years 2018 and 2017 financial statements of CSB based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Bulletin No. 19-01, *Audit Requirements for Federal Financial Statements*. Those standards and OMB Bulletin No. 19-01 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

Independent Auditors' Report

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of U.S. Chemical Safety and Hazard Investigation Board as of September 30, 2018 and 2017, and its net costs, changes in net position, and budgetary resources for the fiscal years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

The information in the *Message from the Chairperson and Management and Discussion Analysis* section of this report is not a required part of the basic financial statements, but is supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of CSB's financial statements. However, we did not audit this information and, accordingly, we express no opinion on it.

Other Reporting Required by Government Auditing Standards

Internal Control over Financial Reporting

In planning and performing our audit of CSB's financial statements as of and for the year ended September 30, 2018, in accordance with generally accepted government auditing standards, we considered CSB's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of CSB's internal control over financial reporting. Accordingly, we do not express an opinion on CSB's internal controls over financial reporting. We limited internal control testing to those necessary to achieve the objectives described in OMB Bulletin No. 19-01. We did not test all internal control relevant to operating objectives as broadly defined by the Federal Managers' Financial Integrity Act of 1982.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatement on a timely basis. A material weakness is a deficiency, or combination of deficiencies, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit the attention by those charged with governance.

Independent Auditors' Report

Our consideration of internal control over financial reporting was for the limited purpose as described in the first paragraph of this section, and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our fiscal year 2018 audit we did not identify any deficiencies in internal control over financial reporting that we considered to be a material weakness, as defined above. However, material weaknesses may exist that have not been identified.

However, we noted additional matters that we will report to CSB management in a separate letter.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether CSB's fiscal year 2018 financial statements are free of material misstatements, we performed tests of CSB's compliance with certain provisions of applicable laws, regulations, contracts, and grant agreements, which noncompliance could have a direct and material effect on the determination of material amounts and disclosures in CSB's financial statements, and certain provisions of other laws specified in OMB Bulletin No. 19-01. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests of compliance as described in the preceding paragraph, disclosed no instances of noncompliance or other matters that are required to be reported herein under *Government Auditing Standards* or OMB Bulletin No. 19-01.

Purpose of the Other Reporting Required by Government Auditing Standards

The purpose of the communication described in the Other Reporting Required by Government Auditing Standards section is solely to describe the scope of our testing of internal control and compliance with selected provision of applicable laws, regulations, contracts, and grant agreements, and the results of that testing, and not to provide an opinion on the effectiveness of CSB's internal control or on compliance. This communication is an integral part of an audit performed in accordance with U.S. generally accepted government auditing standards in considering internal controls and compliance with laws, regulations, contracts, and grant agreements which could have a material effect on CSB's financial statements. Accordingly, this communication is not suitable for any other purpose.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The United States Chemical Safety and Hazard Investigation Board (CSB) is an independent Federal agency with the mission of ensuring the safety of workers and the public by promoting chemical safety and accident prevention. The CSB was established by the Clean Air Act Amendments of 1990 and is responsible for advising the President and Congress on key issues related to chemical safety and evaluating the effectiveness of other Government agencies on safety requirements. The CSB receives all of its funding through appropriations. The CSB reporting entity is comprised of General Funds and General Miscellaneous Receipts.

General Funds are accounts used to record financial transactions arising under congressional appropriations or other authorizations to spend general revenues. The CSB manages Operations and Facilities, Engineering and Development General Fund accounts.

General Miscellaneous Receipts are accounts established for receipts of non-recurring activity, such as fines, penalties, fees and other miscellaneous receipts for services and benefits.

The CSB has rights and ownership of all assets reported in these financial statements. The CSB does not possess any non-entity assets.

B. Basis of Presentation

The financial statements have been prepared to report the financial position and results of

operations of the CSB. The Balance Sheet presents the financial position of the agency. The Statement of Net Cost presents the agency's operating results; the Statement of Changes in Net Position displays the changes in the agency's equity accounts. The Statement of Budgetary Resources presents the sources, status, and uses of the agency's resources and follows the rules for the Budget of the United States Government.

The statements are a requirement of the Chief Financial Officers Act of 1990 and the Government Management Reform Act of 1994. They have been prepared from, and are fully supported by, the books and records of the CSB in accordance with the hierarchy of accounting principles generally accepted in the United States of America, standards issued by the Federal Accounting Standards Advisory Board (FASAB), Office of Management and Budget (OMB) Circular A-136, *Financial Reporting Requirements*, as amended, and the CSB accounting policies which are summarized in this note. These statements, with the exception of the Statement of Budgetary Resources, are different from financial management reports, which are also prepared pursuant to OMB directives that are used to monitor and control the CSB's use of budgetary resources. The financial statements and associated notes are presented on a comparative basis. Unless specified otherwise, all amounts are presented in dollars.

C. Basis of Accounting

Transactions are recorded on both an accrual accounting basis and a budgetary basis. Under the accrual method, revenues are recognized when earned, and expenses are recognized when a liability is incurred, without regard to receipt or payment of cash. Budgetary

accounting facilitates compliance with legal requirements on the use of federal funds.

D. Fund Balance with Treasury

Fund Balance with Treasury is the aggregate amount of the CSB's funds with Treasury in expenditure, receipt, and deposit fund accounts. Appropriated funds recorded in expenditure accounts are available to pay current liabilities and finance authorized purchases.

The CSB does not maintain bank accounts of its own, has no disbursing authority, and does not maintain cash held outside of Treasury. Treasury disburses funds for the agency on demand. Foreign currency payments are made either by Treasury or the Department of State and are reported by the CSB in the U.S. dollar equivalents.

E. Accounts Receivable

Accounts receivable consists of amounts owed to the CSB by other Federal agencies and the general public. Amounts due from Federal agencies are considered fully collectible. Accounts receivable from the public include reimbursements from employees. An allowance for uncollectible accounts receivable from the public is established when, based upon a review of outstanding accounts and the failure of all collection efforts, management determines that collection is unlikely to occur considering the debtor's ability to pay.

F. Property, Equipment, and Software

Property, equipment and software represent furniture, fixtures, equipment, and information technology hardware and software which are recorded at original acquisition cost and are depreciated or amortized using the straight-line method over their estimated useful lives. Major alterations and renovations are capitalized, while maintenance and repair costs are expensed as incurred. The CSB's capitalization threshold is \$10,000 for individual purchases and \$50,000 for bulk purchases. Property, equipment, and software

acquisitions that do not meet the capitalization criteria are expensed upon receipt. Applicable standard governmental guidelines regulate the disposal and convertibility of agency property, equipment, and software. The useful life classifications for capitalized assets are as follows:

<u>Description</u>	<u>Useful Life (years)</u>
Leasehold Improvements	Lease Term
Office Furniture	7
Office Equipment	5
Computer Equipment	3
Software	3

G. Liabilities

Liabilities represent the amount of funds likely to be paid by the CSB as a result of transactions or events that have already occurred.

The CSB reports its liabilities under two categories, Intragovernmental and With the Public. Intragovernmental liabilities represent funds owed to another government agency. Liabilities with the Public represent funds owed to any entity or person that is not a federal agency, including private sector firms and federal employees. Each of these categories may include liabilities that are covered by budgetary resources and liabilities not covered by budgetary resources.

Liabilities covered by budgetary resources are liabilities funded by a current appropriation or other funding source. These consist of accounts payable and accrued payroll and benefits. Accounts payable represent amounts owed to another entity for goods ordered and received and for services rendered except for employees. Accrued payroll and benefits represent payroll costs earned by employees during the fiscal year which are not paid until the next fiscal year.

Liabilities not covered by budgetary resources are liabilities that are not funded by any current appropriation or other funding source.

These liabilities consist of accrued annual leave, unfunded FECA, actuarial FECA and the amounts due to Treasury for collection and accounts receivable of civil penalties and Freedom of Information Act (FOIA) request fees.

H. Annual, Sick, and Other Leave

Annual leave is accrued as it is earned, and the accrual is reduced as leave is taken. The balance in the accrued leave account is adjusted to reflect current pay rates. Liabilities associated with other types of vested leave, including compensatory, restored leave, and sick leave in certain circumstances, are accrued at year-end, based on latest pay rates and unused hours of leave. Funding will be obtained from future financing sources to the extent that current or prior year appropriations are not available to fund annual and other types of vested leave earned but not taken. Nonvested leave is expensed when used. Any liability for sick leave that is accrued but not taken by a Civil Service Retirement System (CSRS)-covered employee is transferred to the Office of Personnel Management (OPM) upon the retirement of that individual. Credit is given for sick leave balances in the computation of annuities upon the retirement of Federal Employees Retirement System (FERS)-covered employees.

I. Accrued and Actuarial Workers' Compensation

The Federal Employees' Compensation Act (FECA) administered by the U.S. Department of Labor (DOL) addresses all claims brought by the CSB employees for on-the-job injuries. The DOL bills each agency annually as its claims are paid, but payment of these bills is deferred for two years to allow for funding through the budget process. Similarly, employees that the CSB terminates without cause may receive unemployment compensation benefits under the unemployment insurance program also administered by the DOL, which bills each agency quarterly for paid claims. Future appropriations will be used for the reimbursement to DOL. The liability consists

of the unreimbursed cost paid by DOL for compensation to recipients under the FECA.

J. Retirement Plans

The CSB employees participate in either the CSRS or the FERS. The employees who participate in CSRS are beneficiaries of the CSB matching contribution, equal to seven percent of pay, distributed to their annuity account in the Civil Service Retirement and Disability Fund.

Prior to December 31, 1983, all employees were covered under the CSRS program. From January 1, 1984 through December 31, 1986, employees had the option of remaining under CSRS or joining FERS and Social Security. Employees hired as of January 1, 1987 are automatically covered by the FERS program. Both CSRS and FERS employees may participate in the federal Thrift Savings Plan (TSP). FERS employees receive an automatic agency contribution equal to one percent of pay and the CSB matches any employee contribution up to an additional four percent of pay. For FERS participants, the CSB also contributes the employer's matching share of Social Security.

FERS employees and certain CSRS reinstatement employees are eligible to participate in the Social Security program after retirement. In these instances, the CSB remits the employer's share of the required contribution.

The CSB recognizes the imputed cost of pension and other retirement benefits during the employees' active years of service. OPM actuaries determine pension cost factors by calculating the value of pension benefits expected to be paid in the future and communicate these factors to the CSB for current period expense reporting. OPM also provides information regarding the full cost of health and life insurance benefits. The CSB recognized the offsetting revenue as imputed financing sources to the extent these expenses will be paid by OPM.

The CSB does not report on its financial statements information pertaining to the retirement plans covering its employees. Reporting amounts such as plan assets, accumulated plan benefits, and related unfunded liabilities, if any, is the responsibility of the OPM, as the administrator.

K. Other Post-Employment Benefits

The CSB employees eligible to participate in the Federal Employees' Health Benefits Plan (FEHBP) and the Federal Employees' Group Life Insurance Program (FEGLIP) may continue to participate in these programs after their retirement. The OPM has provided the CSB with certain cost factors that estimate the true cost of providing the post-retirement benefit to current employees. The CSB recognizes a current cost for these and Other Retirement Benefits (ORB) at the time the employee's services are rendered. The ORB expense is financed by OPM, and offset by the CSB through the recognition of an imputed financing source.

L. Use of Estimates

The preparation of the accompanying financial statements in accordance with generally accepted accounting principles requires management to make certain estimates and

assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Actual results could differ from those estimates.

M. Imputed Costs/Financing Sources

Federal Government entities often receive goods and services from other Federal Government entities without reimbursing the providing entity for all the related costs. In addition, Federal Government entities also incur costs that are paid in total or in part by other entities. An imputed financing source is recognized by the receiving entity for costs that are paid by other entities. The CSB recognized imputed costs and financing sources in fiscal years 2018 and 2017 to the extent directed by accounting standards.

N. Reclassification

Certain fiscal year 2017 balances have been reclassified, retitled, or combined with other financial statement line items for consistency with the current year presentation. Activity and balances reported in the FY 2017 Statement of Budgetary Resources have been reclassified to conform to the updated guidance provided in OMB Circular A-136 issued July 30, 2018.

NOTE 2. FUND BALANCE WITH TREASURY

Fund balance with Treasury account balances as of September 30, 2018 and 2017, were as follows:

	2018	2017
Status of Fund Balance with Treasury:		
Unobligated Balance		
Available	\$ 920,907	\$ 876,985
Unavailable	877,041	853,888
Obligated Balance Not Yet Disbursed	2,510,996	2,291,107
Total	\$ 4,308,944	\$ 4,021,980

No discrepancies exist between the Fund Balance reflected on the Balance Sheet and the balances in the Treasury accounts.

The available unobligated fund balances represent the current-period amount available for obligation or commitment. At the start of the next fiscal year, this amount will become part of the unavailable balance as described in the following paragraph.

The unavailable unobligated fund balances represent the amount of appropriations for which the period of availability for obligation has expired. These balances are available for upward adjustments of obligations incurred only during the period for which the appropriation was available for obligation or for paying claims attributable to the appropriations.

The obligated balance not yet disbursed includes accounts payable, accrued expenses, and undelivered orders that have reduced unexpended appropriations but have not yet decreased the fund balance on hand (see also Note 11).

NOTE 3. ACCOUNTS RECEIVABLE

Accounts receivable balances as of September 30, 2018 and 2017, were as follows:

	2018	2017
With the Public		
Accounts Receivable	\$ -	\$ 4,098
Total Accounts Receivable	\$ -	\$ 4,098

The accounts receivable is primarily made up of reimbursements due from employees.

Historical experience has indicated that the majority of the receivables are collectible. There are no material uncollectible accounts as of September 30, 2018 and 2017.

NOTE 4. PROPERTY, EQUIPMENT, AND SOFTWARE

Schedule of Property, Equipment, and Software as of September 30, 2018

Major Class	Acquisition Cost	Accumulated Amortization/Depreciation	Net Book Value
Leasehold Improvements	\$ 271,851	\$ 208,419	\$ 63,432
Furniture & Equipment	1,224,349	922,720	301,629
Software	243,165	185,568	57,597
Total	\$ 1,739,365	\$ 1,316,707	\$ 422,658

Schedule of Property, Equipment, and Software as of September 30, 2017

Major Class	Acquisition Cost	Accumulated Amortization/Depreciation	Net Book Value
Leasehold Improvements	\$ 983,356	\$ 865,554	\$ 117,802
Furniture & Equipment	1,083,819	896,657	187,162
Software	313,694	195,288	118,406
Total	\$ 2,380,869	\$ 1,957,499	\$ 423,370

NOTE 5. LIABILITIES NOT COVERED BY BUDGETARY RESOURCES

The liabilities for the CSB as of September 30, 2018 and 2017, include liabilities not covered by budgetary resources. Congressional action is needed before budgetary resources can be provided. Although future appropriations to fund these liabilities are likely and anticipated, it is not certain that appropriations will be enacted to fund these liabilities.

	2018	2017
Intragovernmental – FECA	\$ 1,020	\$ 1,020
Intragovernmental – Unemployment Insurance	10,527	-
Unfunded Leave	392,509	496,266
Actuarial FECA	-	4,146
Total Liabilities Not Covered by Budgetary Resources	\$ 404,056	\$ 501,432
Total Liabilities Covered by Budgetary Resources	611,371	771,612
Total Liabilities	\$ 1,015,427	\$ 1,273,044

FECA liabilities represent the unfunded liability for actual workers compensation claims paid on the CSB's behalf and payable to the DOL. The CSB also records an actuarial liability for future workers compensation claims based on the liability to benefits paid (LBP) ratio provided by DOL and multiplied by the average of benefits paid over three years.

Unfunded leave represents a liability for earned leave and is reduced when leave is taken. The balance in the accrued annual leave account is reviewed quarterly and adjusted as needed to accurately reflect the liability at current pay rates and leave balances. Accrued annual leave is paid from future funding sources and, accordingly, is reflected as a liability not covered by budgetary resources. Sick and other leave is expensed as taken.

NOTE 6. OTHER LIABILITIES

Other liabilities account balances as of September 30, 2018 were as follows:

	Current	Non Current	Total
Intragovernmental			
FECA Liability	\$ 1,020	\$ -	\$ 1,020
Unemployment Insurance Liability	10,527	-	10,527
Payroll Taxes Payable	46,202	-	46,202
Total Intragovernmental Other Liabilities	\$ 57,749	\$ -	\$ 57,749
 With the Public			
Payroll Taxes Payable	\$ 12,396	\$ -	\$ 12,396
Accrued Funded Payroll and Leave	169,684	-	169,684
Unfunded Leave	392,509	-	392,509
Total Public Other Liabilities	\$ 574,589	\$ -	\$ 574,589

Other liabilities account balances as of September 30, 2017 were as follows:

	Current	Non Current	Total
Intragovernmental			
FECA Liability	\$ 1,020	\$ -	\$ 1,020
Payroll Taxes Payable	55,679	-	55,679
Total Intragovernmental Other Liabilities	\$ 56,699	\$ -	\$ 56,699
 With the Public			
Payroll Taxes Payable	\$ 23,075	\$ -	\$ 23,075
Accrued Funded Payroll and Leave	230,691	-	230,691
Unfunded Leave	496,266	-	496,266
Total Public Other Liabilities	\$ 750,032	\$ -	\$ 750,032

NOTE 7. LEASES

Operating Leases

The CSB occupies offices in Washington, DC and Denver, CO under lease agreements, which are both accounted for as operating leases.

The Washington DC lease agreement has a ten-year term commencing on October 1, 2015 and ending on September 30, 2025. The total operating lease expense for the years ended September 30, 2018 and 2017 were \$711,478 and \$656,868, respectively. In Fiscal Year 2018, there was an additional Real Estate Tax payment made in the amount of \$17,500 related to the 2017 assessment. According to Section 1.03 of this agreement, beginning in the 4th year of the lease and continuing through the 10th year of the lease, the first two (2) months of rent in each year (totaling 14 months of free rent) shall be entirely abated. Below is a schedule of future payments for the term of the lease.

Washington, DC

Fiscal Year	Office Space
2019	\$ 610,862
2020	626,837
2021	644,000
2022	662,446
2023	682,279
Thereafter	1,430,176
Total Future Payments	\$ 4,656,600

The lease agreement for office space in Denver, CO is accounted for as an operating lease. The lease agreement is for a period of 60 months commencing on or about December 1, 2014. The total operating lease expense for the years ended September 30, 2018 and 2017 were \$95,912 and \$95,433, respectively.

Lease payments are increased annually based on the adjustments for operating cost. The CSB may relinquish space upon four (4) months' notice. Thus, at any future time, the CSB's financial obligation can be reduced to four (4) months of rent, plus the unamortized balance of any tenant improvements financed through Public Buildings Service (PBS) plus any rent concessions not yet earned. Below is a schedule of future payments for the Denver lease.

Denver, CO

Fiscal Year	Office Space
2019	\$ 98,742
2020 (2 months)	16,511
Total Future Payments	\$ 115,253

NOTE 8. BUDGETARY RESOURCE COMPARISONS TO THE BUDGET OF THE UNITED STATES GOVERNMENT

The President's Budget that will include fiscal year 2018 actual budgetary execution information has not yet been published. The President's Budget is scheduled for publication in February 2019 and can be found at the OMB Web site: <http://www.whitehouse.gov/omb/>. The 2019 Budget of the United States Government, with the "Actual" column completed for 2017, has been reconciled to the Statement of Budgetary Resources and there were no material differences.

For the Fiscal Year Ended September 30, 2017

FY2017	Budgetary Resources	New Obligations and Upward Adjustments	Distributed Offsetting Receipts	Net Outlays
Statement of Budgetary Resources	\$13,000,000	\$ 11,000,000	\$ -	\$ 11,000,000
Expired Unobligated Balance Not Available		(\$1,000,000)		
Budget of the U.S. Government	\$12,000,000	\$11,000,000	\$ -	\$ 11,000,000

NOTE 9. APPORTIONMENT CATEGORIES OF NEW OBLIGATIONS AND UPWARD ADJUSTMENTS

Obligations incurred and reported in the Statement of Budgetary Resources in 2018 and 2017 consisted of the following:

	2018	2017
Direct Obligations, Category B	\$ 10,940,896	\$ 10,976,069
Total New Obligations and Upward Adjustments	\$ 10,940,896	\$ 10,976,069

Category B apportionments typically distribute budgetary resources by activities, projects, objects or a combination of these categories.

NOTE 10. UNDELIVERED ORDERS AT THE END OF THE PERIOD

As of September 30, 2018, budgetary resources obligated for undelivered orders were as follows:

	Federal	Non-Federal	Total
Unpaid Undelivered Orders	\$ 19,008	\$ 1,880,615	\$ 1,899,623
Total Undelivered Orders	\$ 19,008	\$ 1,880,615	\$ 1,899,623

As of September 30, 2017, budgetary resources obligated for undelivered orders were as follows:

	Federal	Non-Federal	Total
Unpaid Undelivered Orders	\$ 33,527	\$ 1,485,967	\$ 1,519,494
Total Other Liabilities	\$ 33,527	\$ 1,485,967	\$ 1,519,494

NOTE 11. CUSTODIAL ACTIVITY

The CSB's custodial collection primarily consists of Freedom of Information Act requests. For 2017, they collected \$3,188 in Freedom of Information Act request fees. While these collections are considered custodial, they are neither primary to the mission of the CSB nor material to the overall financial statements. The CSB's total custodial collections are \$0 and \$3,188 for the years ended September 30, 2018, and 2017, respectively.

NOTE 12. RECONCILIATION OF NET COST OF OPERATIONS TO BUDGET

The CSB has reconciled its budgetary obligations and non-budgetary resources available to its net cost of operations.

	2018	2017
Resources Used to Finance Activities:		
Budgetary Resources Obligated		
New Obligations and Upward Adjustments	\$ 10,940,896	\$ 10,976,069
Spending Authority From Offsetting Collections and Recoveries	(166,887)	(243,443)
Net Obligations	10,774,009	10,732,626
Other Resources		
Imputed Financing From Costs Absorbed By Others	422,661	231,920
Total Resources Used to Finance Activities	11,196,670	10,964,546
Resources Used to Finance Items Not Part of the Net Cost of Operations	(687,465)	4,409
Total Resources Used to Finance the Net Cost of Operations	10,509,205	10,968,955
Components of the Net Cost of Operations That Will Not Require or Generate Resources in the Current Period:	214,770	263,390
Net Cost of Operations	\$ 10,723,975	\$ 11,232,345
